Section IV

State Administration

Section 608(a) of the IDEA requires each State that receives funds under this title to:

- (1) ensure that any State rules, regulations, and policies relating to this title conform to the purposes of this title;
- (2) identify in writing to local educational agencies located in the State and the Secretary any such rule, regulation, or policy as a State-imposed requirement that is not required by this title and Federal regulations; and
- (3) minimize the number of rules, regulations, and policies to which the local educational agencies and schools located in the State are subject under this title.

States must attach to this application a list identifying any rule, regulation, or policy that is State-imposed (not required by IDEA or Federal regulations). If there are no such State-imposed rules, regulations, or policies, please so indicate. In addition, the State is required to inform local education agencies in writing of such State-imposed rules, regulation or policy. (20 U.S.C. 1407(a); 34 CFR §300.199)

State Imposed Requirements

State imposed requirements not imposed by IDEA or federal regulations are:

1) In the definition of “child with a disability, Tennessee includes functional delay and the intellectually gifted.

Tennessee Code Annotated, Section 49-10-102 (1) (B): “Child with disabilities” means a child with mental retardation, hearing impairments (including deafness), speech or language impairments, visual impairments (including blindness), emotional disturbance, orthopedic impairments, autism, traumatic brain injury, other health impairments, specific learning disability, developmental delay, *functional delay*, and *the intellectually gifted*.

2) In the definition of IEP, Tennessee requires a statement of benchmarks or short-term objectives.

Tennessee Rules and Regulations 0520-01-09-.12(1)-(3): (1) A statement of measurable annual goals, including benchmarks or short-term objectives, related to: (a) Meeting the child’s needs that result from the child’s disability to enable the child to be involved in and progress in the general curriculum (the same curriculum as for children without disabilities), or for preschool children to participate in appropriate activities; and (b) Meeting each of the child’s other educational needs that result from the child’s disability. (2) Strategies that are effective in realizing the child’s goals and either measurable, intermediate steps (short-term objectives) or major milestones (benchmarks) that will enable parents, students, and educators to monitor progress during the year, and, if appropriate, to revise the IEP consistent with the student’s instructional needs. (3) Short-term objectives or benchmarks for each annual goal. Short-term instructional objectives generally break the skills described in the annual goal down into discrete components. As an alternative, IEP teams may develop benchmarks, which can be thought of as describing the amount of progress the child is expected to make within specified segments of the year. Generally, benchmarks establish expected performance levels that allow for regular checks of progress that coincide with the reporting periods for informing parents of their child’s progress toward achieving the annual goals. An IEP team may use either short-term objectives or benchmarks or a combination of the two depending on the nature of the annual goals and the needs of the child.

3) In the definition of IEP, Tennessee requires a statement of transition service needs in the IEP of a child age fourteen (14) or younger.

Tennessee Rules and Regulations 0520-01-09-.12(4): “Prior to the 9th grade or age fourteen (14) (or younger, if determined appropriate by the IEP team), all students will develop an initial four (4)-year plan of focused and purposeful high school study. The plan will be reviewed annually and amended as necessary and will connect the student’s goals for high school including, the courses and/or training and/or skills necessary to meet their potential after high school. This required plan will include identifying

possible transition service needs of the student under the applicable components of the student's IEP. This plan may be developed through a process in general education but a copy must be in the students IEP after approval by the IEP team."

LEAs are notified of the aforementioned requirements on a yearly basis in their LEA Comprehensive Application, their Proportional Amount Calculation and in the instructions when completing areas of the federal data tables, state data tables, at the annual Spring meetings and during conference presentations.
